

THE EVENING BULLETIN.

VOLUME XVII.

MAYSVILLE, KY., MONDAY, MARCH 14, 1898.

NUMBER 94.

AMERICAN TERRITORY

Not to Be Attacked by Spain in the Event of War.

WILL DEPEND ON PRIVATEERING.

They Are Not Anxious to Come Out and Show Fight.

APPEAR TOO COWARDLY FOR THAT.

But in the Event of Privateering It May Become Necessary to Invade and Bring About the Disembarrassment of Spain.

Madrid, March 14.—The view held in official circles is that Spain will not provoke a war, because if she did she would find herself isolated, but if America gives the provocation Spain will not be alone in the struggle.

The general opinion is that in the event of war Spain will not need to attack American territory. It will suffice her to pursue a war of privateering.

As America's commerce is sevenfold greater than Spain's, American interests would suffer most. War would be madness, benefiting neither nation, and good sense, therefore, counsels peace.

Powder for Big Guns.

Wilmington, Del., March 14.—The powder works of the E. I. DuPont-De Mours company is now working day and night on a government order for hexagonal powder for the big guns. Until a day or two ago only the day force was at work, but it is said that orders from Washington necessitated the employment of a night force. In addition some of the buildings are being enlarged and more machinery is being put in. There are 26 grinding mills on the place, and these are now all running. The daily capacity of the works is said to be 10 tons of hexagonal powder. Work is also said to be hurried at the company's plant in New Jersey, near Gibbstown.

Finishing Big Guns.

Washington, March 14.—At the Washington gun factory there are now in various stages of construction no less than 150 guns of formidable character on which work is being done night and day with a view to their early completion. No new guns are being started, but the entire efforts of the factory are devoted to finishing those now under way. A naval officer said there would be enough of them when finished to constitute a fair armament for probably thirty or more auxiliary cruisers, should such a large fleet be found necessary to supplement the regular warships.

All Are Kept Busy.

Cleveland, March 14.—Warner & Swasey of this city are filling a large order for the government for telescopes, to be used on heavy guns for sighting purposes. They are also at work on a new model of range finder, which will be shipped to Fort Monroe, where it will be tested within a few days. The inventor of this device has been here several weeks superintending the construction. The Otis Steel company of this city is also filling a government order for deck plates for cruisers.

Ready for War.

Washington, March 14.—The Miantonomah, Katahdin, Minneapolis and Columbia are now all but ready to sail within a day or two, if so ordered. All the warships are coaled and have most of their stores aboard, and about all that remains to be done now is to replenish their stock of ammunition. This will be done at the government magazine, a short distance below the navy yard, and all of the vessels will then be ready for sailing at a moment's notice.

Plans Mapped Out.

Portsmouth, N. H., March 14.—Plans for the placing of submarine mines for Portsmouth harbor have been mapped out and a large force of men have been actively at work near the fortifications. It is claimed, however, that these mines will be of little use, owing to the great depth of water in the river, there being over 10 fathoms in the channel from the entrance at New Castle to within a short distance of the navy yard.

No Report Necessary.

Madrid, March 14.—The government is momentarily expecting to receive the report of the Spanish commission, which, it is understood, will maintain that the Maine explosion was internal. Although the American commission may give another explanation, the government will energetically uphold the Spanish report.

A Tugload of Projectiles.

Newport, March 14.—The tug Leyden left the torpedo station for League island navy yard with torpedo outfits of

20 projectiles for the cruisers Minneapolis and Columbia and torpedo boat Rodgers. The tug has been detached from this station, and will hereafter be attached to League island navy yard.

Must Rely Upon Herself.

Paris, March 14.—Spain does not deceive herself when she counts upon the sympathies, at least latent, of European governments, but it would be a mistake for her to expect any effectual support from either Great Britain or the triple alliance. Therefore, she must rely upon herself.

Working Ten Hours.

Washington, March 14.—Last week an order was received at Frankfort arsenal to work 10 hours a day, but whatever contract was involved has probably been completed, for the order has been rescinded. The average daily output of cartridges there is 38,000 rounds, but during the 10-hour day this could be increased by from 8,000 to 10,000. It is the only arsenal in the United States where small ammunition is made. The number of employees has been gradually increased of late from 600 to 700 workmen.

Arbitration Talked Of.

London, March 14.—The Daily Graphic editorially suggests that there is still time remaining that can be utilized to negotiate an agreement to refer the Maine matter to arbitration to ascertain the "true facts," and to decide as to the nature of the indemnity, if any be due to the United States. "England," says the Daily Graphic, "would sympathize with a war for the liberation of Cuba, but if the United States goes to war, it must be in a just cause and after every effort to secure an honorable peace has been exhausted."

The Machias In Good Trim.

Washington, March 14.—The gunboat Machias, which has just arrived at Norfolk from the Asiatic station by way of the Suez canal, has been found to be in fair shape as a result of the examination by the naval inspection board. A thorough overhauling will be unnecessary in the present instance, and she will be sent to Boston, where all necessary repairs can be made to her in about 12 days.

Unusual Activity.

Reading, Pa., March 14.—The promise of a contract for projectiles amounting to over \$1,000,000 to the Carpenter steel works kept the entire plant in unusual activity. Work was pushed all along the line on projectiles in the main plant, on the erection of the three new buildings, and in getting the Diamond Steel company's works (which have been released) into running order.

Call for Auxiliary Cruisers.

New York, March 14.—The board of auxiliary cruisers has opened an office here, and agents and owners of ships have been invited to make proposals for turning over to the navy such vessels as are of value for conversion into warships. There are hundreds available, all classes being included. Everything is ready for their transformation.

Ordered to Have Steam Up.

Atlanta, March 14.—Orders were received here Sunday night by the master mechanics of all the railroads entering the city to have every engine steamed up and ready for use at a moment's notice. All round houses in the yards were lighted up and a full force of men put to work—a very unusual thing for Sunday night.

Pushing the Work.

Bethlehem, Pa., March 14.—The Bethlehem Iron company has received orders to push all government work as yet unfinished on the 100 10-inch and 12-inch guns and carriages, and the force of skilled mechanics in all departments is working night and day.

Prepared to Move Promptly.

El Reno, O. T., March 14.—No orders for the immediate movement of troops have been received, as far as known, at either Fort Sill or Fort Reno, O. T. The troops at both points, however, are prepared to move at a moment's notice, having been placed on orders last week.

Movements of Ships.

Key West, March 14.—The battleship Iowa arrived from the Tortugas and is anchored off here. The torpedo boat Dupont sailed with mail and dispatches for the fleet at Tortugas. She will relieve the torpedo boat Porter, now at the Tortugas.

Valparaiso, Ind., March 14.—The Aetna Powder company, at Miller Station, has received an order for 100 tons of powder and 200 tons of dynamite cartridges from the war department. The works will be run day and night.

Paris, March 14.—If the privateering threats of Spain are carried out it may be necessary for the United States to invade Spain and bring about her disembarrassment.

Not Yet Settled.

Washington, March 14.—Secretary Long made the statement that the matter of the purchase of the two Brazilian ships had not been settled.

A PRIZEFIGHTER SHOT

By an Alleged Ex-Convict in an Indiana Town.

SELF-DEFENSE IS CLAIMED.

The Victim Accused His Slayer With Being a Party to a Robbery of One of the Former's Associates Not Long Ago.

Shelbyville, Ind., March 14.—Alonzo Barrett met Edward Skotski on the public square, when the latter is said to have charged Barrett with having been a party to robbing one of Skotski's friends.

Barrett shot Skotski just over the left nipple, the ball passing through the body. Skotski ran through the saloon of Isaac Houck and on to Jackson street, during which time Barrett fired two more shots without effect.

On reaching the rear street Skotski was overcome by loss of blood. Dr. Frank Campbell pronounced his wound fatal. Skotski had a reputation as a lightweight prizefighter.

Barrett, it is said, has served time at Michigan City for counterfeiting. He will plead self-defense, claiming that Skotski drew a knife on him.

NO PROSECUTION.

A Dangerous Criminal Escapes a Justly Deserved Fate.

Chicago, March 14.—B. R. Bennett, alias Charles P. Mead, formerly of Indianapolis, who was arrested on a charge of swindling the First National bank by means of raised drafts has been released, the bank officials having requested that the case against him be dismissed. The matter, it is understood, was settled out of court.

Harrison Omitted.

Martinsville, Ind., March 14.—The executive committee of the Seventieth Indiana regiment volunteer infantry met here and fixed the date of the next reunion of their regiment for the evening of Aug. 11 and the next day at Bethany park. In arranging the program the committee did not put General Harrison on, and he will not be asked to take any part. For several years a special effort has been made to get Mr. Harrison to attend a meeting of his old comrades, and last year he selected the date and then left for his summer home two days before the meeting.

Killed by a Train.

Lebanon, Ind., March 14.—John L. Mowrey, a prominent and wealthy citizen of Whitestown, this county, was struck and instantly killed by Big Four passenger train No. 12. Mr. Mowrey was an aged man and quite deaf, and the train was upon him before he realized his situation.

Belligerent Young America.

Aurora, Ind., March 14.—A traveling hand organist was believed to be a Spaniard by some small boys, ranging from 5 to 10 years of age, and stoned out of town by patriotic archers, who followed, shouting "Remember the Maine." The fellow got out on the double quick.

Declared For Hays.

Greencastle, Ind., March 14.—The Republican county convention declared for Hon. S. A. Hays for congress, and empowered him to select his own delegates to the Martinsville convention.

Found in a Ditch.

Joliet, Ill., March 14.—The body of Thomas Walsh of the large wholesale grocery house of Walsh & Sons was found in a ditch near this city. Marks on the head indicated that the man had been murdered, and it is believed by his relatives that robbery was the motive. The police believe Mr. Walsh was drugged, carried to the lonesome spot where his body was found and murdered.

Must Pay Railroad Fare.

Detroit, March 14.—In view of the extra session of the Michigan legislature called by the governor to assemble next week to consider Governor Pinckney's measures for increasing the taxes upon railroads, the governor has issued a proclamation warning members of the legislature and state officers against accepting passes.

Church Litigation Settled.

Lebanon, Ind., March 14.—The contending factions in the celebrated Mount Tabor church compromised their differences. The anti-Means faction agreed to pay the Means faction \$550 in money, and the latter gave the former possession of the church property. Each side pays its own costs.

Said to Be an Ohioan.

New York, March 14.—Frederick J. Blair, said by the police to be a son of President A. G. Blair of the Wheeling and Lake Erie railroad, of Toledo, and who was arrested charged with passing worthless checks, was held in the Jefferson Market court.

NO PREPARED PROGRAM.

The Senate Is Free to Act on Anything of Importance.

Washington, March 14.—There is no prepared program for the senate for the present week. If Senator Bacon is prepared to speak on the Hawaiian annexation treaty it will be taken up promptly, as indeed it will be if any senator is prepared to go with the debate.

It is not expected, however, that there will be much further discussion of this subject in executive session, and it is the intention of Senator Davis, chairman of the senate committee on foreign relations, at a very early day to move to lay Senator Bacon's plebiscite amendment upon the table.

It is upon this motion that the managers of the treaty hope to secure a test vote, and Senator Davis said that he was hopeful that this vote might be reached during the present week.

Senator Pettigrew is anxious and expects to get his 5 per cent land bill before the senate early in the week, and Senator Vest will make an effort to secure consideration of the quarantine bill.

There is also a possibility that the census bill may be pressed for consideration. An entirely new census bill probably will be offered, providing for the immediate establishment of the census machinery, instead of making preliminary arrangements for it as the bill first prepared did.

The committee on appropriations is hopeful of being able to report the sundry civil bill during the week, and if it should be successful this measure will be pressed upon the attention of the senate to the exclusion of everything else.

In the House.

Washington, March 14.—The program of the house this week as mapped out would be completely changed if any move is made in connection with the Spanish crisis involving legislative action.

But as at present arranged, it includes simply the consideration of the postoffice appropriation bill and the Virginia contested election case of Thorp versus Eppes, with the possibility that the naval appropriation bill might be reached at the tail end of the week.

There will be a conflict for precedence between the election case and the postoffice bill, Chairman Walker of the elections committee and Chairman Loud of the postoffice committee each firmly contesting for the right of way.

If Chairman Walker insists the contested election case, being a question of the highest privilege, would have precedence under the rule, but the house by a vote could give the postoffice bill precedence.

The Democrats intend to contest the election case bitterly, as upon the decision in this case they believe will depend the fate of the other two cases from Virginia, another of which was reported Saturday against the sitting member.

It is expected that the report of the committee will also be against Mr. Swanson from the Danville, Va., district.

Hypnotic Play.

London, March 14.—Sir Henry Irving will shortly appear on the stage in modern clothes for the first time in years, in a new play, "The Medicine Man," the joint production of H. D. Trail and Robert Hichens, which is now under rehearsal. Hypnotism furnishes the motive of the play, Sir Henry hypnotically directing a murderer. There are two Americans in the cast, Ray Rockman and Susanette Sheldon.

Charged With Manslaughter.

New York, March 14.—Dr. Trumbull Cleveland, a prominent and fashionable physician, and who is said to be a cousin of the former president, was arrested charged with manslaughter. It is alleged that by ignorant treatment he caused the death of the infant child of James L. Gearhart.

Satisfaction Demanded.

La Libertad, Salvador, March 14.—The diet of the Greater Republic of Central America sent an ultimatum to the Costa Rican government on March 7 demanding satisfaction and the payment of indemnity within 10 days for her intervention in the revolution in Nicaragua last February.

Mr. Bruce Ill.

Washington, March 14.—Blanche M. Bruce, register of the treasury, and ex-senator from Mississippi, is seriously ill at his residence here and it is feared he may not survive. He has been suffering from acute stomach trouble.

Washington, March 14.—The full report of the conference of the union for the protection of industrial property, which met at Brussels in December last, has been received from the delegates representing the United States, Hon. Bellamy Storer, United States minister to Belgium, and Mr. Francis Forbes.

THE BOWERY MISSION

Destroyed by Fire Early Sunday Morning.

ELEVEN PERSONS BURNED.

It Is Supposed the Conflagration Was Caused by a Cigarette Stump Being Thrown Among Paper in a Lavatory.

New York, March 14.—The Bowery mission burned Sunday morning and 11 persons were cremated.

It is supposed the fire originated from a cigarette stump thrown among paper in a lavatory.

The building was damaged about \$7,000 and contents about \$5,000; both fully insured.

There were about 300 lodgers in the building at the time and many of them had narrow escapes.

Homestead Entry Valid.

Washington, March 14.—Secretary Bliss has rendered a decision of considerable interest in the case of Oleson against Travers from the Des Moines land district. The land in controversy was originally within the grant to a railroad company, which subsequently forfeited its charter. Oleson contracted to buy from the railroad company and when the latter lost its land he claimed the right to purchase under the law of March 3, 1887. After the forfeiture and when the land was opened to settlement Travers made a homestead entry and the secretary decides the case in his favor, and he will be permitted to perfect his claim.

Startling Statement.

Madrid, March 14.—The Madrid Correspondencia prints the following telegram from Berlin: "I know from a sure source that at a family dinner party in the palace, at which was present Princess Irene, the wife of Prince Henry, the emperor's brother, who is now in command of the German squadron in the far east, William II uttered the following really startling words in consequence of the conversation having turned upon Cuban affairs: 'What I declare is, that as long as William II is emperor of Germany the Yankees shall not take possession of Cuba.'"

Troubles of Their Own.

London, March 14.—The domestic troubles of the Grand Duke and Grand Duchess of Hesse have culminated in separation of the couple, and the Duke o. Edinburg, father of the grand duchess, is going to Simiez in order to try, with the help of Queen Victoria, to heal the troubles in the grand ducal household. The result has been to set on foot a movement to secure the succession of the dukedom to the grand duke's eldest sister, the Princess Louise of Battenburg.

Favors Clean Base Ball.

New York, March 14.—President Andrew Freedman of the New York baseball club has signed and forwarded to President Nick Young at Washington his acceptance of the anti-kicking measure passed at the recent meeting of the National League in St. Louis. In an interview Mr. Freedman said: "The league can pass no rule that the New York team can not abide by. We are for clean baseball."

Home For Methodist Poor.

Xenia, O., March 12.—Dr. Weakley has just completed a notable bargain for Methodism. For \$5,000 he has purchased the Yellow Springs house and furnishings complete as a home for the worthy poor of the Methodist church. The hotel is delightfully located at Yellow Springs, being situated among the most picturesque grounds and surroundings. It has heretofore been used as a summer resort.

Mounting Defense Guns.

Boston, March 14.—The work of mounting the new 10-inch guns at Fort Warren and Long Island head is being actively pushed. The last one of the three 10-inch rifles at Fort Warren is practically completed. Of the five which will be mounted at Long Island head three are in position and work on the other two is far advanced.

Weylerites Nominated.

Madrid, March 12.—Placards have been posted throughout the city setting forth that the national candidates whom all good Spaniards should support are Generals Borrero and Sigura. The placards end with "Long live the fatherland; long live the army." These candidates are nominated by the Weylerites.

New Incorporations.

Columbus, O., March 14.—The Miami River and Belt Railway company, Sidney, amendment enlarging purpose; the Ohio Salt company, Wadsworth, capital stock \$100,000; the Conneaut Protection Hose club, Conneaut; the Home Building and Loan company, Newcomertown, capital stock \$200,000.

Kentucky—Fair, Monday; northeasterly, shifting to southeasterly winds

No convention to be held this year will be fraught with greater interest or importance than the great gathering of the Democratic hosts and all their bimetallic allies of Ohio, Kentucky, Indiana and Illinois in Indianapolis on Wednesday and Thursday, April 6th and 7th, at the second annual convention of the League of Bimetallic clubs of the Ohio Valley. Every silver club, whether political, social labor or class, can send delegates to this convention, and as W. J. Bryan has positively promised to attend, and George Fred Williams, H. F. Bartine, Joe Blackburn, J. K. Jones, A. N. Towne, A. J. Warner, Marion Butler and others are also expected, and a railroad rate of one fare for the round trip has been given, there is no reason why Kentucky's delegation should not be large and representative. The movement has the cordial endorsement of State Chairman Johnston, Hon. Charles J. Bronston, Judge James P. Tarvin and others who are co-operating with the league to make the meeting an unqualified success. All requests for information from Kentucky should be sent to Ramsey Washington, Newport, Ky., who will also send blanks for organizing clubs, if desired.

STAMPING OUT AN EPIDEMIC.

As our older citizens well know, the local authorities of this town and county have been frequently called upon to deal with visitations of epidemic disease (many of them of a formidable character) and the measures officially adopted have always proved effective, and the expenses incurred have in many instances been light. While not expensive, the arrangements for suppression were in all respects systematic and complete. Everything was quietly, thoroughly, efficiently done; the officials, the medical profession, and the people moved in perfect harmony. The city treasury was not threatened with sudden depletion; the county Magistrates were not hunted down for appropriations nor held up for the payment of preposterous medical fees; the incidental expenses of suppression were not of a character to excite suspicion or alarm; and the medical services required in these grave emergencies were rendered with unflinching cheerfulness, fidelity and skill. Then, as now, the physicians of the town and county were, in the main, exceedingly clean, cool, sensible, clear-headed men who neglected no professional duties, who adopted no sensational methods, who scorned all crooked devices, and who neither encouraged nor permitted any hysterical exaggeration in daily announcements concerning the situation or the progress of the disease. There was not, indeed, a great deal of "stamping out" done in those days, but, as a rule, the epidemic, when attacked, was speedily extinguished, and the ordinary course of travel and traffic was not seriously disturbed. If the neighboring towns and counties desired to "quarantine" against us, they were quite at liberty to do so, provided they did it at their own expense; but in those days at least, we felt entirely competent to handle our own epidemics, to employ and compensate our own doctors, to protect our own people, to nurse our own sick, and to bury our own dead. And this is something that every brave and intelligent Anglo-Saxon community is competent to do; and, if not, it certainly does not agonize for the charities of a Good Samaritan who feelingly proffers to relieve the stricken community after a high Levitical fashion and at its own expense. That sort of Samaritanism is as likely to stamp out the community as the disease.

Called Meeting.

There will be a called meeting of the Washington Fire Company Monday evening, March 14th, at 7 o'clock at Neptune Hall. All members and friends of the company are invited to be present. Plans for a new opera house will be submitted and other important business will come before the meeting.

M. C. RUSSELL, President.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at J. Jas. Wood's drug store. Regular size 50c. and \$1. Guaranteed or price refunded.

MEDDLING AND MUDDLING.

Fighting Epidemic With Electricity at Long Range—Wires Kept Hot and Federal Aid Invoked.

MIDDLESBOROUGH, Ky., March 9.—(Special telegram to Courier-Journal)—This has been a day of considerable excitement at Middlesborough. When the small-pox epidemic broke out the expense of maintaining guards, caring for and feeding the patients was met by the municipal government, and while the regulations were not rigidly enforced there was little complaint from the populace. On the first of March, Dr. Samuel Blair, of Pineville, a member of the County Health Board, and an appointee and "referee" of the State Board, assumed control of the epidemic, believing that he would be backed up by the county officials. Several thousand dollars' expense had been incurred when it was stated that a number of Magistrates had intimated that the county would not honor Dr. Blair's warrants.

The State Board being notified of the situation, Dr. Arthur McCormack sends a telegram to the County Judge: Judge J. F. Neal, Pineville, Ky.: Following telegram just received from State Board of Health: Unless city or county authorities can arrange, will be forced to relieve you all and local board from duty, stop all trains and adjoining counties to protect themselves. Can get paper carried without interest if Fiscal Court will honor it. If not, will act as above outlined.

In the event that this Fiscal Court repudiates the debt the citizens may advance the money, and if necessary the United States authorities will be asked to take charge of the epidemic.

March 8.—Dr. J. N. McCormack at Bowling Green to-day ordered a quarantine proclamation to be issued. The proclamation is rigid, and no person will be permitted to enter or leave the city until the order is revoked. The proclamation is a great surprise, as the situation is much better than for several weeks, but Dr. McCormack asserts that it was necessary on account of persons who have left with health certificates having broken out after their departure. A reward is being offered for each small-pox discovery, and notwithstanding the quarantine proclamation the situation continues to improve.

PINEVILLE, Ky., March 10.—The Secretary of the Board of Health wired County Judge J. T. Neal to-day that if he did not call the County Court together and make appropriations sufficient to pay men now on duty as quarantine guards, the State Board would leave Middlesborough and order a quarantine against Bell County. Judge Neal has already said that he was against the County Court making any appropriation.

March 11.—Judge Neal to-day reconsiders his recent decision, and agrees to appropriate from the County Treasury \$1,000 for supplies, but will not contribute one cent for guards' "salaries" or medical fees. At a citizens meeting to-day it was agreed to advance to the City Treasurer \$1,100, and an active canvass will be made for more. One new small-pox case was discovered to-day, but Dr. McCormack thinks the amount subscribed will be sufficient to "stamp out the epidemic." An appeal to the Federal government has been made for aid, doubtless by persons who are sceptical as to the effectiveness of the municipal, county and State "stampers." There are but forty-nine cases now in the pest houses, and the outlook is good for a general delivery very soon.

March 12.—The State Board agents and referees have apparently switched off and the citizens are now co-operating with United States Surgeon Wertenbaker in stamping out the disease. Dr. McCormack while hospitably extending the freedom of the pest-stricken district, thinks that the National Surgeon's visit was "uncalled for;" apparently ignorant of the fact that the visitor is there in direct response to a "call." In this the Secretary seemed to stand alone. The situation, however, is visibly brighter. Five new cases have been discovered and seven convalescents have been turned loose. No deaths in the hospitals and no diminution in the numbers of the guards or in the quantity of the supplies.

March 12.—A Barboursville special of this date to the Courier-Journal says that four new guards were added to the list of the East Jellico to-day on account of trouble between miners and guards on the previous night. There is only one case of small-pox at the mines to date, but that seems to have been enough to inspire a sense of uneasiness among the miners, and they at once made a rush to jump the quarantine. Fifty shots were exchanged between the guards and the escaping miners. The latter seem to be thoroughly ignorant of the principles of sanitary science, and are proceeding upon the crude theory that small-pox at close quarters is a dead shot, which evidently the "guards" are not. However this may be, the exodus last night, though somewhat precipitate, was unanimous, and practically endorses the principle of "isolation" in all cases—for the well not less than the sick, nor do they seem to have improved materially upon this doctrine in the meddling and muddling at Middlesboro.

The Watters artists are now at Paris.

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

ROYAL BAKING POWDER CO., NEW YORK.

FIRE insurance—John C. Everett.

JUDGE COLE was somewhat better this morning.

The March term of the Bracken Circuit Court convenes to-day.

YANCY RAY and family moved this week from Bourbon County.

TEN thousand yards good tobacco cotton, 1½c., at New York Store.

FIRE INSURANCE.—Pickett & Respass, successors to Duley & Baldwin.

TRY "The Senate." Best 5 cent cigar in the city. 210 Market street. Open all night.

WHY not buy the White & Martin business property on Second street March 26th, and stop rent.

THERE is an old saying, "a fog in March is followed by a frost in May." We have had two heavy fogs this month.

MAYOR HALPHILL, of Higginsport, who was shot last Thursday night by John Donald and son, died Saturday morning.

MR. L. W. ROBERTSON, who has been ill with an attack of rheumatism, is much better and will probably be out in a few days.

MR. AND MRS. JOHN B. SHAW, Miss Blanche Stiles and Miss Katherine Daulton united with the Christian Church Sunday morning.

MESSRS. JAMES STEWART, Henry Ray, John T. Parker and William T. Berry are the new deacons chosen Sunday by the First Baptist Church.

THE crew laying the ninety-pound new steel rails on the C. and O. is now east of Maysville and are putting down three miles of track each week.

IN the case of Field against Stroube, the Bracken court house case, the Court of Appeals has overruled the petition for a rehearing and for a modification of opinion.

MURPHY, the jeweler, is showing a handsome line of diamonds in all styles of mountings. His stock of watches cannot be equaled in Maysville. Learn his prices.

REV. GEORGE E. RAPP, the eloquent young pastor of the M. E. Church, at Mitchell Chapel and Dover, has a call to go as a missionary to China or Japan. He has taken the matter under advisement.

THERE may be some doubt yet as to how the Maine was blown up, but there is no doubt at all as to where you can secure the best jewelry in Maysville. Balenger's is the place. His stock is unequalled.

A WASHINGTON special says that Leslie Combs, of Lexington, left for home Saturday night, carrying with him the personal assurance of the President that he should have the office of Pension Agent for Kentucky.

THE Limestone Fire Company of the Sixth ward will meet this Monday evening at 7 o'clock at the street car barn. Important business and all are urged to attend. Applications for membership will be received.

THE C. and O.'s eastbound express last night made the run from Newport to Broshears Station in just sixty minutes. The train left Cincinnati nearly an hour late, the delay being caused by waiting for the train from the West.

WHAT is known as the Goebel Fellow-servants bill has been passed by the Legislature and sent to the Governor for approval. The bill provides that employees of railroads who are injured by the negligence of fellow employees shall have the right to sue for damages.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. James Wood.

100

There's style in black fabrics, and variety, too—almost infinite variety. The new summerish weaves are ready. Sombre? Let us say "rich." That better classifies this mono-color dress goods elegance. Come and see these newest things. We make a conservative statement in saying 100 does not cover our different weaves and prices in black Dress goods. One hundred styles, all black, all distinctly different; plain, diagonal twills, bayadere stripes, momie effects, crepe, sail-cloth, poplins, lizades, dice patterns, chevrons; truly wonderful diversity among the black beauties that reach only such modest prices these:

Forty-two inches wide, 50c., 65c., 85c. a yard; forty-five inches wide, 75c. a yard; forty-eight inches wide, \$1, \$1.25, \$1.50 a yard.

GRENADINES—Give yourself a pleasant twenty minutes' look at the Grenadines. Spider webs are seemingly little finer than these silken threads. Polka dots, big and little, ribbon stripes and brocades, and midnight shadows of flowers are held on the filmy grounds. Prices, \$1.00, \$1.25, \$1.75, \$2.50 the yard.

D. HUNT & SON.

WON'T GIVE UP

Unless Forced to Do So—Republican Penitentiary Officials Guarding the Prisons Against the Democrats.

FRANKFORT, Ky., March 11.—It is a fact given out to-night by some of the penitentiary officials themselves that the entrance to the Frankfort prison is guarded day and night now by men armed with Winchester to prevent the new Democratic Commissioners from having a chance to take actual possession of the prison.

They believe that possession is nine points of the law, and do not propose to surrender peaceably to the new regime.

Warden Hancock, who has been sick at his residence just one square from the prison entrance, was taken to the prison hospital yesterday, and will remain there and direct the management of the prison from the inside, where he cannot be reached for the purpose of serving notice or process on him to give up the prison.

The new Commissioners have no idea of using any force to secure possession of their rights, but the prison officials think so, and are preparing to meet force with force.

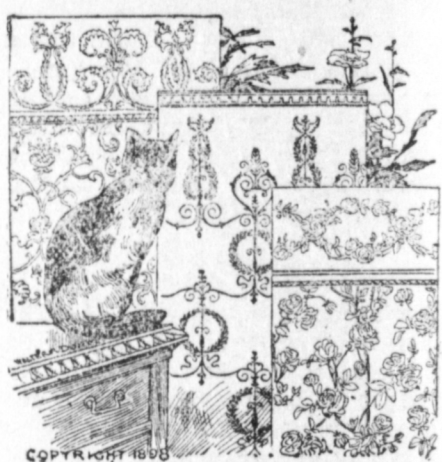

THE protracted meeting at the M. E. Church continues with increasing interest. There have been eight conversions, and four additions to the membership. Preaching this evening at 7 o'clock by the pastor, Rev. F. W. Harrop. Rev. Boyd Muse will sing a solo. The public invited.

WHILE Mr. and Mrs. J. Barbour Russell were at church last night a thief entered their home and stole a small sum of money. No arrests yet. The thief climbed up on the roof of the porch in rear and entered through a second-story window.

Beats the Klondike.

MR. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for consumption, coughs and colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for consumption. Trial bottles free at J. James Wood's drug store. Regular size 50 cents and \$1. Guaranteed to cure or price refunded.

CONTEMPLATING A NEW DESIGN

On the many designs on our stock of Wall Papers, will make you marvel at the beauty of the conceptions, and the exquisite blending of the colors. Putting our artistic papers on your walls is in reality decorating them. Our Glimmers and Embossed Wall Papers at 25 cents per roll you couldn't buy a few years ago for double the price.

The Bee Hive!

Some Serviceable Silk Suggestions.

Our stock of Silks was never so large, varied and choice as you will find it now. And what's more to your interest, values were never so great with prices so low. You will wonder that we can furnish such fastidious Silks at such modest prices. At 39c. a beautiful Shepherd Plaid, and Pongees in all shades at 29c. A great line of figured silks of a superior quality. A regular 65c. quality Plaid for 49c. At 59c. we have a complete line of China Silks, twenty-four inches wide. These come in all colors.

Ribbon Randoms.

We will have on sale for this week about one thousand yards of SILK RIBBON, in stripes and plaids, of all colors, three and a half inches wide, a regular 15c. quality, our price 10c. Also a complete line of SASH RIBBONS in all the latest shades, four inches wide, and all silk, at 35c. a yard. A double faced, black Satin Ribbon, five and a half inches wide, sold everywhere for 55c., our price 45c. a yard. Besides, all other kinds of Ribbon, both narrow and wide, at particularly low prices.

Laces and Embroideries.

Some recent arrivals are worthy of your immediate inspection. We buy these goods direct from the makers, and there are too many good things to make especial mention of any. Come and be convinced that it is the greatest stock of its kind ever known in this vicinity. And then, too, prices way below others.

MURDER AND SUICIDE.

A Young Wife Shot Down With Her Babe in Her Arms—Murdere Kills Himself.

MANCHESTER, OHIO, March 12.—Thomas Robb, of Robbtown, a small village in Kentucky, about a mile above here, shot and killed Mrs. Sylvester Reed, a young married woman, with whom he was in love. He was in Manchester until about 3 o'clock. Going to the home of Mrs. Reed he called for her on the pretense of having a letter.

She sent her little girl for the letter, but Robb refused to give it to the child, and insisted on seeing the mother. Mrs. Reed appeared with a baby in her arms, when Robb, without a word, turned and fired three shots at her, two taking effect in the breast, the other in the head, killing her instantly. He then shot himself through the head and fell across her dead body. The child was unharmed.

Robb is well known around here. He was only about eighteen years of age, while the murdered woman was about twenty-six. It is thought by some that he was intoxicated at the time, while others think that jealousy was the cause of the deed. Mrs. Reed's husband is employed by the C. and O. Railroad. She leaves three small children.

WON THE PRIZE.

Miss Clinkenbeard Awarded the Gold Medal in the Declamatory Contest at Flemingsburg.

Miss Corinna Clinkenbeard, one of Maysville's most talented young ladies, carried off the honors in the declamatory contest at Flemingsburg last Friday evening.

The contest was given at Lyceum Hall, under the auspices of the Young Peoples' Society Christian Endeavor of that city.

There were fourteen competitors for the prize, as follows: Miss Clinkenbeard, Miss Bertha Kirkland, Miss Hattie King, Miss Gertrude Staton, Morris N. Evans, William Gordon, Miss Lois Willis, O. N. Cord, Miss Nellie Fallon, Miss Lida Jones, Dennis Meadows, Homer Carpenter, Charles N. Sherman and Miss Annabel Toncray.

Miss Clinkenbeard recited "Flying Jim's Last Leap." Her many friends are congratulating her on her splendid victory over so many competitors. The prize was a handsome gold medal.

Charles N. Sherman was awarded second prize.

The rainfall last week amounted to .59 of an inch.

The passage by the Legislature of the amendment to the city charter of Louisville will enable that city to exempt from taxation for five years all new manufacturing plants.

The contract for building Fayette County's new court house was awarded to Messrs. Clark and Howard, of Lexington. They agree to put up the house in twelve months and are to receive therefor \$134,100.

WILSON & BASKETT, of the Maysville Power Laundry, have put in a Columbia ironer, the latest improved machine for ironing collars and cuffs. It can be so adjusted as to give either a domestic or a high gloss finish. Patronize home enterprises. Satisfaction guaranteed.

LEXINGTON Gazette: "Captain Horace Means sold at the Ninth street house in Louisville last week, for C. S. Wilmott, of Sandersville, Fayette County, 16 hogsheads of tobacco at an average price of \$15.83, bringing the sum of \$2,533.61 for its owner. This tobacco was raised on ten acres of land, and Mr. Wilmott had no tenant to divide with, having cultivated it with his own hands and a little help from hired hands. It cost about \$30 an acre to bring it to market and it netted him \$233 per acre."

St. Patrick's Day. Next Thursday will be St. Patrick's Day and will be observed here by the Catholics with a high mass at 9 a. m. In the evening at 7:30 o'clock Rev. Francis Kehoe, who was assistant priest here for some time, will deliver a lecture appropriate to the occasion at St. Patrick's Church. All are invited. Seats free.

Best of All.
